

iPad orders will run from June 01 - 2024 to July 30 - 2024

The ordered iPad will be delivered to the school on 2nd week of August. The school's technical engineers will configure the iPad upon receipt with all the necessary applications and files.

The iPad will then delivered to the parents by 3rd week August.

BYOD: - Parents who wish to provide the iPad of their choice (Min. 8th generation, Storage 64GB) to the IT department of the school must make an appointment through « [BookNow](#) ».

The configuration will take place between August 13 and September 7, 2024.

The ICS Company has been working with the LFITM for several years on connected classes and today offers a package including a 10th generation 64GB iPad at 1350 AED (Apple retail price: 1399 AED), a shell (180 AED) and ICS care insurance for two academic years (395 AED). In total, the cost is therefore 1925 AED.

The ICS care insurance covers the immediate replacement of the iPad in the event of failure or breakage (be careful, in the event of breakage, each repair will cost up to 300 aed) with restoration of the student's data – this includes in particular the software Apple System Manager essential for using the iPad in class.

Parents of CM1 and CM2 have the option of buying directly or using their own iPad provided it is 8th generation and subscribing to « Care for Personal Device iPad Configuration » for 395 AED for 2 years.

However, pay attention to the following points:

- Large surface iPads can have an attractive entry price: however, you have to add VAT, the cover and ICS care for Configuration.
- ICS care is a customization of AppleCare. The big difference is in replacement (not immediate with AppleCare, immediate with ICS care), in the cost of repairs in the event of breakage (2 possible replacements during the term of the insurance for 10% of the price of the iPad with AppleCare; no replacement limit but cost up to 300 AED with ICS care), data restoration (none with AppleCare; provided with ICS care).

In summary, parents have the choice between:

- Order before Wednesday, July 30, 2024 an iPad configured with MDM&ASM, with the insurance of 1925 AED for 2 years.
- Provide the iPad of their choice (min. 8th generation, Storage 64GB) to the school's IT department from Tuesday August 13, 2024. Setup will take place between August 13 and September 13. You will need to make an appointment in advance: « [BookNow](#) ».

For parents who wish to use their own iPad,
Contact the IT Department:

Information on the delivery of your iPad: ipadsupport.ltm@aflec-fr.org

Warranty information for your iPad: ipadsupport.ltm@aflec-fr.org

Technical support: ipadsupport.ltm@aflec-fr.org

The FIS offers the possibility of purchasing the iPad directly from the establishment. It is not an obligation. However, if you obtain the iPad on your own, the school's technical department must carry out the configuration (personal device service).

The implementation of this procedure makes it possible on the one hand to reduce the difficulties of configuring the device and installing software and on the other hand, to significantly increase the cybersecurity linked to the use of the iPad.

The iPad will be delivered directly to your child at school, already configured and equipped with all the necessary protection software.

You can discover this service by clicking on the following link: <https://ipad.icscloud.org/>
